NEW

Halesworth Seafoam

THE UK'S NUMBER 1 TRADE KITCHEN SUPPLIER*

The Trusted Name In Kitchens

For nearly three decades, we have worked with trade professionals to create homes their customers are proud of. And, kitchens that are right on quality, price, and style.

We believe that tradespeople have the skills to install our products for a lasting fit. Meanwhile, our depots have the design know-how and product expertise to bring your ideas to life.

With more than 100 designs and thousands of products to choose from, your kitchen will be customised to you.

*Source: Mintel, Kitchens and Kitchen Furniture, UK September 2023

Buying From Us

While a tradesperson is essential to buy and fit your kitchen, you can still visit your local depot to complete your design. We'll also help you find a trade professional, if you need one.

Get A Free Design

It all starts with the design - and our service is free.

From home survey to the 3D plan, our designers will get to know you and your space to ensure your kitchen meets your lifestyle, budget, and taste.

Our products are also available from local stock, so once you're happy with your kitchen, your fitter will have the parts they need to complete the job.

**Book A FREE
Design Appointment**

Scan the QR code, book online at [Howdens.com](https://www.howdens.com), or visit your local depot to get started.

“Mark and Tyrone have a great working relationship with Howdens. And, the fact we had a depot on our doorstep made the whole process easy.”

Dan Francis - Homeowner

A MODERN MAKEOVER

Teaming Up With Trade

Dan's kitchen was a far cry from the social space he hoped to achieve in his home, so he sought the help of local builders, Mark White and Tyrone Allan from Marant Development, to update his layout.

With a keen eye on contemporary interiors, Dan wanted a modern design that captured a bold palette. He also wanted to maximise space for an island, so he could entertain family and friends.

Mark and Tyrone knew that Howdens had the design expertise and product choice to bring Dan's ideas to life. So, they introduced him to Harry, a local designer at our Huntingdon depot.

Combining the slab style of Hockley Charcoal with timber features, Harry created a modern look. He also used clever storage to add an island, saving Dan money, and his builders time on a costly extension.

Knowing Howdens products, Mark and Tyrone's expertise achieved a swift and lasting fit. With their experience, Dan's boiler was also moved to make room for more storage during installation.

Read the whole story on
Howdens.com

“ We always recommend Howdens as their quality and customer service is second to none. The products are stocked locally too, so it's easy to get the job started. ”

Mark White - Tradesperson

Canadian Urban Oak

Baltic Washed Oak

Oake & Gray Laminate Flooring

Featuring a water-resistant coating and a realistic timber effect, our new Oake & Gray laminate flooring offers a stylish and practical floor for many areas around the home.

Shaker Kitchen Styles

Use shaker doors and drawer fronts to create a classic cooking space. Tailor them to a traditional or contemporary look with the choice of styles available across our shaker collection.

Shaker

Create a timeless look with the simple framed design of a shaker door.

Available in:

Witney	P26	Allendale	P34
Halesworth	P56	Chelford	P70
Chilcomb	P110		

Beaded Shaker

Capture elegance with decorative beaded detail for a luxurious look.

Available in:

Bridgemere	P82	Elmbridge	P122
------------	-----	-----------	------

In-Frame Shaker

Harness heritage style with an additional border surrounding fronts.

Available in:

Chilcomb	P110	Elmbridge	P122
----------	------	-----------	------

Handleless Shaker

Give shaker a modern twist with a minimalist, handle-free appearance.

Available in:

Chelford	P70	Chilcomb	P110
----------	-----	----------	------

Shaker Kitchen Finishes

Select a finish to enhance your chosen look. Create a modern space with bold or classic tones in a matt appearance or go for timber textures for a crafted aesthetic.

Matt

Choose a matt finish for doors that are smooth to the touch and on the eye.

Available in:

Witney	P26	Chelford	P70
--------	-----	----------	-----

Woodgrain Effect

Replicate the look and feel of timber, adding texture and classic character.

Available in:

Allendale	P34	Halesworth	P56
Bridgemere	P82		

Timber and Veneer

Create a high-end interior finish using the authentic qualities of real timber.

Available in:

Chilcomb	P110	Elmbridge	P122
----------	------	-----------	------

Slab and Integrated Handle Kitchen Styles

Create a sleek and contemporary interior with slab-style doors and drawers. Personalise them to your chosen aesthetic with framed and frame-less, handled, and handle-free options.

Slab

Use the one-piece design to create a kitchen with minimalist appeal.

Available in:

Greenwich P12 Hockley P90

In-Frame Slab

Add a crafted touch with a border around door and drawers.

Available in:

Hockley P90

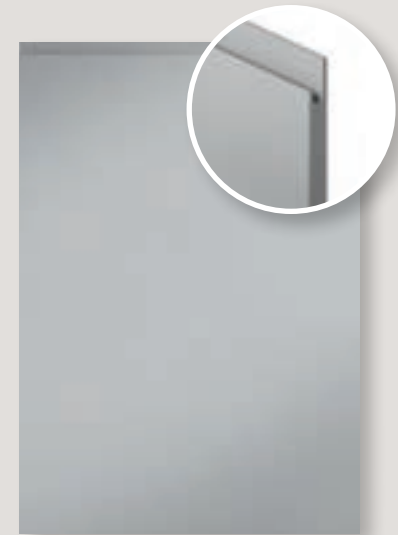

Handleless Slab

Embrace simplicity with our handleless cupboards and profiles.

Available in:

Greenwich P12 Hockley P90

Integrated Handle

Pick doors with a j-pull grip for an affordable handle-free appearance.

Available in:

Clerkenwell P42

Slab and Integrated Handle Kitchen Finishes

Choose a finish to set the mood for your slab kitchen. Add glamour with high-shine gloss, introduce a luxe velvety sheen with matt, or layer with texture to add depth to the design.

Gloss and Mirror Gloss

Bounce light around dark or compact spaces with a reflective gloss finish.

Available in:

Greenwich P12 **Clerkenwell** P42

Hockley P90

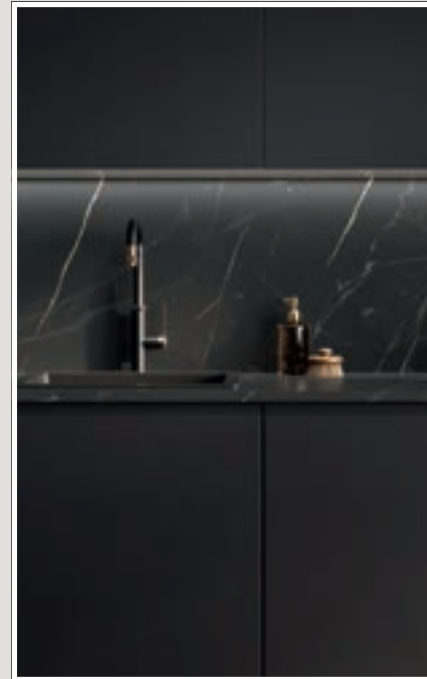

Matt

Go for a matt finish to soften lighting and bold colours, to create a calming space.

Available in:

Greenwich P12

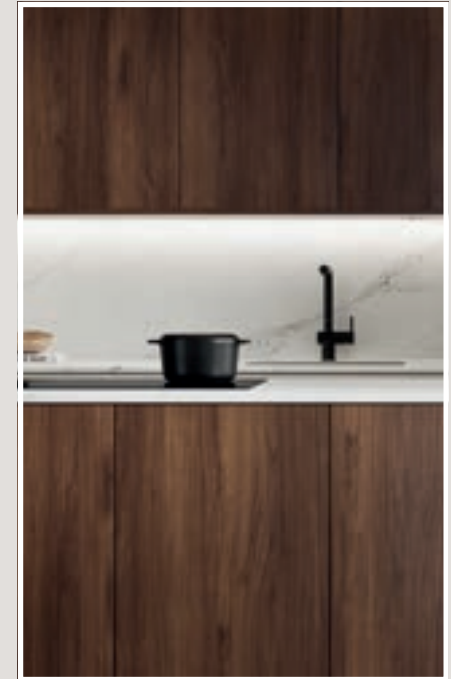

Super Matt

Use the ultra-smooth finish of super matt to make a stylish and inviting kitchen.

Available in:

Greenwich P12 **Clerkenwell** P42

Hockley P90

Textures

Tap into texture with timber, stone and concrete effects for a statement look.

Available in:

Hockley P90

Made by us, in the UK

We design and make many of our products in Yorkshire and Cheshire, so we can provide quality products when you need them.

RIGID, HANDLELESS, AND FLAT-PACK CABINETS

25-Year Cabinet Guarantee

All our cabinetry is made from high-quality materials and rigorously tested by our dedicated facility in Howden to ensure it is built to last. As a result, we provide a 25-year guarantee for total peace of mind.

More than 90% of the material used to make our cabinets is recyclable

A Fast Fit With Rigid

Ready-assembled cupboards save fitting time, meaning your project gets finished faster. They also come in more than 200 sizes, including extra tall and extra deep, to customise a space.

Greenwich Matt Dove Grey with Extra Tall Croft Grey Wall Cabinet

AWARD WINNING CABINETS

Which? Best Buy For 4 Years

Which? said our cabinets are solidly built.

And, our rigid cabinets were rated 'excellent' for strength of drawers and hinges.

Of all customers surveyed, Howdens customers were least likely to have problems with their cabinets.

A Cabinet Colour for Every Kitchen

Choose from three cabinet colours to enhance a kitchen. White cabinets provide a brightening effect, while natural oak complements a handcrafted look, and croft grey adds depth and drama to a space.

Template & Fit* Solid Surface Worktops

Premium, precise, and personalised - every detail of a Template & Fit solid work surface is designed by you. With Dekton, quartz, and acrylic to choose from, we measure, make and fit in your surface in just 5 working days from template to fit.

WHY CHOOSE A TEMPLATE & FIT WORKTOP?

Available within 5 working days, from template to fit, we'll help you tailor your new surface to your lifestyle, space and decor.

Luxurious, long-lasting and bespoke - Template & Fit surfaces are created from high-end and hard-wearing materials.

DECIDE ON MATERIAL AND COLOUR

Whether you go for Dekton, quartz or acrylic, each material offers practical benefits and opportunity for personalisation. Remember that bespoke worktops may have visible joins.

From fashionable white, versatile grey, or dramatic black, there's a shade to match your design.

*Applies to Dekton Stone, Howdens Quartz and Acrylic Solid Work Surface offering only. We aim to fit in 5 working days from template. We will let you know if we are unable to meet the timescale. Conditions and exclusions apply see: [howdens.com/promotions-terms-and-conditions](https://www.howdens.com/promotions-terms-and-conditions)

PICK A PROFILE

With four decorative styles available, the right profile adds the final flourish that takes a custom surface from good to great.

Double Bevel*

Double Pencil

Ogee

Shark's Nose

WHAT MAKES A WORKTOP BESPOKE?

From the size, layout, and material to the shade, thickness, and profile, every detail of a Template & Fit worktop is customised by you for a bespoke finish.

SLAB TECH INTEGRATED SINKS AND DRAINER GROOVES

For undermount sinks, drainer grooves can be added during templating for manufacturing. These ensure a seamless look so water drains quickly.

*Dekton only available in double bevel profile

Four Simple Steps

DESIGN

Choose your counter and customise it to your aesthetic with help from our designers.

TEMPLATE AND APPROVAL

Our in-house surveyor visits your home to create a template. Here, you'll check and approve the order.

MANUFACTURING

Your bespoke worktop is made to the measurements of your exact layout at our UK factory.

INSTALLATION

Our solid surface fitter installs your bespoke worktop, leaving you with a high-end finish.

To find out more about buying a **Template & Fit solid surface worktop**, scan the QR code or speak to your local depot team.

Handles

CLASSIC

Pick handles that contrast with the colour of cabinet fronts to make them a feature of the space or opt for similar tones for a harmonious finish. Consider polished metals to catch the eye or aged finishes for a muted effect.

WAS5502

Mix and Match on Strainer Waste Kits

Square and round strainer waste kits are available in a choice of finishes to match our kitchen handles and taps and create a coherent look.

Choose from aged brass, black, polished nickel and brushed brass. Suitable for single and 1.5 bowl sinks.

Sinks and Taps

GRANITE SINKS

Made from a stone compound, granite sinks stand up to scratching, staining, and chipping, making them easy to clean. Choose between inset or undermount styles in contemporary designs and shades. Chasewater sinks have a lifetime guarantee.

EXPLAINING OUR RANGE

Appliance Technology

Support the smooth-running of a household with a variety of tech from leading appliance brands.

Ovens and Cookers

Choose an oven to make meal preparation easier. With a variety of settings and cooking methods to meet your needs, our ovens can be fitted in several configurations to suit any kitchen.

Conventional Ovens

With both top and bottom heating elements, these ovens distribute heat from above and below to cook dishes through.

Fan Ovens

A circular heating element and fan ensures heat is circulated around the cavity to ensure food is evenly cooked.

Steam Ovens

The main cavity is injected with moisture to create a humid environment that cooks dishes quickly while maintaining flavour and texture.

Split Cavity Ovens

Use as a large single oven or divide into two to cook multiple dishes at different temperatures or to prevent flavour transfer.

Multi-Function Ovens

Providing a choice of cooking methods a multi-function oven offers flexibility in how you cook.

Combination Ovens

Choose between oven and microwave settings for cooking and heating functions.

Self Cleaning Ovens

Heating the oven to 500°C this setting turns dirt and grease into ash, which can be simply wiped clean.

Telescopic Runners

Telescopic shelf rails make it possible to access food without reaching into the oven.

Air Fry Trays

Upgrade a standard oven to a multi-functional appliance and make healthier meals quickly and using less energy.

Available for Lamona, Bosch and Zanussi.

Compact Appliances

Complete your cooking suite with a choice of built-in compact appliances to aid food and drink preparation. Taking up less space in the kitchen, these offer a convenient option when making quick meals.

Microwaves

Traditional microwaves fit in our tower units and one wall cabinet option available. Frees up space on worktops.

Microwave and Grill

Traditional microwave with turntable and added grill function. Various sizes available.

Combination Microwaves

A traditional microwave with added oven functions. Benefits from fan cooking and grill functionality.

Compact Oven With Microwave

Get all the functionality of an oven and microwave in one. Fitted with shelves and trays rather than a turntable.

Warming Drawers

For plate warming, dough proving and defrosting. Slow cook food at low temperatures and keep food at desired temperatures.

Coffee Machines

Bean to cup coffee machines offer a strong fresh taste, with automatic grinding of beans to save time.

Microwave Power Levels

All microwaves have different power levels, but combination microwaves, compact ovens with microwaves, and microwaves with grills usually offer more flexibility in adjusting power levels for different cooking tasks.

Baking and Roasting Capability

Compact ovens with microwaves and combination microwaves are better suited for baking and roasting compared to standard microwaves. They can provide a more oven-like cooking experience.

Grilling

The grill element browns food and seals in the juices, while the fan circulates heat evenly. As it needs lower temperatures, it is more economical.

Versatility

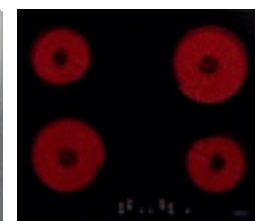

Compact ovens with microwaves and combination microwaves are generally more versatile, allowing you to perform a wider range of cooking tasks compared to standard microwaves.

Hobs

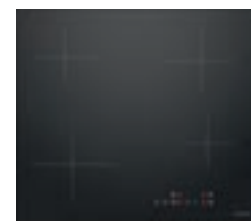

Gas Hobs

Precision cooking with easy controls, instant heat, and a flame failure safety device to automatically switch off the gas if the flame goes out.

Ceramic Hobs

With a minimalist appearance, ceramic hobs offer an easy-clean solution for counter-top cooking with heated zones.

Induction Hobs

Using a series of coils beneath a ceramic surface, they heat the bottom of pans directly, while the cooking surface stays cool. This makes them a safe choice in multi-generational households.

Choosing the Right Induction Hob

Standard - Induction technology heats the pan up rather than the surface of the hob.

Bridge - Linking cooking zones together creating an easy way to cook with larger pots and pans.

Flex - The flex induction area allows for multiple pans to be placed anywhere.

Vented - Combine induction hob technology with an inbuilt extractor.

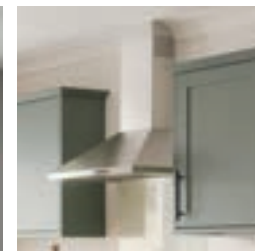

Cooker Hoods

Lamona cooker hoods are unbranded, meaning they can be matched with other appliance brands in the kitchen for a streamlined look. Complemented by a 3-year warranty, for peace of mind.

Ceiling and Island

Located above an island or breakfast bar, these cooker hoods fix directly to the ceiling creating a statement within the kitchen.

Chimney

These sit above a hob or cooker and come with a choice of fan speeds. Choose a model that matches or exceeds the width of the hob.

Canopy

Sitting within a unit above the hob, these cooker hoods are great for creating a sleek and harmonious look.

We always recommend ducting externally where possible.

Refrigeration

Pick from integrated and freestanding models to suit any household and space. From compact under-counter wine coolers to large-capacity American fridges, there is a choice of sizes, capacities, styles, and features to choose from.

Integrated Refrigeration

Neatly fitting behind a cabinet door, retaining a streamlined appearance in the home.

Freestanding Refrigeration

Stand alone refrigeration offers great flexibility in your kitchen design, sitting anywhere in your space.

American Refrigeration

Providing generous capacity for food and drink cooling, American-style appliances can be plumbed in for free-flowing water cooling or non-plumbed for easy fitting.

Wine Coolers

Available in three convenient sizes: 60cm, 30cm, and 15cm. Models feature adjustable temperature zones, reversible door design and range from 7 up to 52 bottle capacity.

Frost-Free

Eliminates the need for manual defrosting.

Automatic Fridge Defrost

A fridge that automatically defrosts itself.

Fast Freeze

Rapidly freeze fresh food, preserving it for longer.

Dishwashers

Put an end to manual washing and drying with a fully integrated or freestanding dishwasher. Available in slimline for small spaces, and large capacity models for big households with a range of settings and accessories.

60cm Dishwashers

Full size dishwashers offer a variety of programmes, features and capacities to choose from.

Slimline Dishwashers

Compact and smaller in size, optimising valuable storage space.

Place Setting Capacity

A place setting consists of all the dishes, cutlery and glasses one person needs for a three-course meal. Choose a capacity for your regular dish-washing needs - from 9-16 settings.

Cutlery Baskets and Trays

Most of our dishwashers come with cutlery baskets and/or trays to aid in cleaning small items and make use of the full capacity.

Automatic Door Opening

A feature on some models where the door will open automatically at the end of a wash cycle. This allows condensation drying to take place, as hot dishes are exposed to cooler room air.

Light Beams

Get notified when the dishwasher finishes its cycle with a light beam that illuminates the floor.

Eco Settings

Using less water and less energy than most quick wash and standard settings, the eco setting is designed to be more environmentally friendly and cheaper to run.

Noise Levels

Noise is measured in decibels and dishwashers typically fall into three categories. 42-46dB is whisper quiet, 47-52dB is moderately noisy - like background conversation, while 53+ can be quite loud and heard throughout the home.

Laundry

Take the chore out of an essential household task with a choice of washers and dryers to suit your needs. Conceal integrated machines behind cabinet doors for a continuous look, or stack or position freestanding models anywhere in the home.

Washing Machines

Find washing machines to suit any household. From standard settings to the latest time-saving, energy efficient and economic auto technologies.

Tumble Dryers

Choose from vented models which expel steam outside via a tube, condenser dryers that collect moisture in a tank, and heat pump models that recycle heated air.

Washer Dryers

Combining two appliances in one, these are a smart choice where space is limited, and the time-saving benefits of each is required.

Start Delay

Ideal for those with busy schedules. Allows cycles to be timed for when the load is needed.

Eco-Programmes

Reduce the amount of water and energy used in each cycle, making it a more sustainable choice.

Energy Ratings

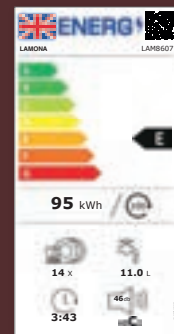

From the 1st March 2021, new energy labels were introduced on refrigeration, laundry and dishwashers.

Why The Change?

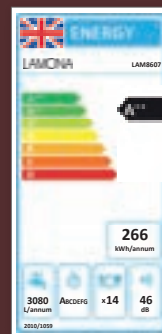

Advances in energy saving technology over the last 10 years has driven the need for revised legislation to realign the rating system. Products are rated simply from A-G, with a new highly efficient A rating. This means that existing appliances are still as efficient as before, but there is now room for future product development.

New labels only feature on dishwashers, washing machines, washer dryers, fridges, freezers and wine coolers. All other appliances continue to use the original energy efficient rating.

New Energy Rating

These labels feature on:
Dishwashers,
Washer Dryers
Washing Machines,
Fridges, Freezers and
Wine Coolers

These labels feature on:
Ovens, Cooker Hoods,
Range Cookers, Vented
Hobs and Tumble Dryers

Our Best-Selling Integrated Appliance Brand

Combining best-in-class performance, on-trend design and the latest technical innovation, Lamona appliances are designed to complement Howdens kitchens and your lifestyle.

With product testing exceeding the highest safety, reliability and durability standards, and industry-leading after-sales, you can enjoy complete peace of mind in your Lamona purchase.

Exclusive to Howdens, all Lamona appliances come with a 3-year guarantee as standard.

Lighting

Use lighting to enhance your kitchen design. Alter the mood from day to night with under-cabinet downlighters and plinth lights and illuminate cupboard contents or make a feature of glazed units with cabinet lighting. All Sensio lighting is designed in the UK, where they constantly strive to create new concepts to brighten kitchens, bedrooms and bathrooms.

Energy Ratings

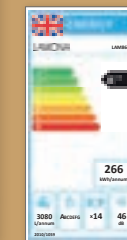

From the 1st March 2021, new energy labels were introduced on lighting.

Improvements in energy saving technology over the last 10 years have driven the revision of the energy labels. This isn't because they're no longer as efficient as before, instead it's due to the introduction of new legislation realigning the rating system.

Designed to be easier to understand, current and new lighting will be rated simply from A-G, with the view that the new highly efficient A energy rating drives future product development.

NEW Label

Old Label

Flooring

HOWDENS 8MM
LAMINATE FLOORING

With a high-density fibreboard core for stability, our 8mm laminate provides a budget-friendly alternative to premium materials. Hard-wearing and easy to clean, it is also compatible with underfloor heating*.

Exceptional Quality and Standards

Product Testing

All our products are rigorously tested at a dedicated, in-house facility to give you and your tradesperson confidence they are built to last. Industry-recognised testing associations also ensure that they stand up to daily use.

Our Guarantees and Accreditations

Many of our products come with extended guarantees and accreditations that back their quality, reliability and sustainability. Cabinets come with a 25-year guarantee, kitchen doors have a five-year guarantee and Lamona appliances have an industry-leading three-year guarantee.

Which Best Buy?

Since April 2021, our rigid cabinets have been awarded a Which? Best Buy. Our new handleless cabinets also received the award in April 2023. Thanks to their solid build they were rated 'excellent' for the strength of drawers and hinges. Of all the customers surveyed, Which? determined that Howdens customers were the least likely to have problems with their rigid or handleless units.

Manufacturing Guild Mark

In 2020 we were awarded the Manufacturing Guild Mark from The Furniture Makers' Company. This accolade reflects high standards in design, product development, manufacturing and sustainability – distinguishing Britain's top furnishing manufacturers since 1993.

The **UK** logo in our brochure indicates that the products illustrated are manufactured and assembled in the UK.

We work closely with our suppliers to ensure that our products come from responsibly managed sources and are produced in a specially responsible way.

F indicates that products are FSC® certified and **P** indicates that products are PEFC certified.

FSC: Greenwich, Witney, Allendale, Clerkenwell, Halesworth, Chelford, Bridgemere, Hockley Super Matt, Chilcomb and Elmbridge kitchen doors and cabinets are made of FSC® certified materials.

PEFC: All Hockley Mirror Gloss kitchen doors have PEFC certification with the exception of decorative accessories, which are made of FSC® certified materials.

The exceptions are:

- Greenwich Gloss White curved return plinths
- Clerkenwell Gloss White curved and return plinths
- Chelford Dove Grey, Chelford Navy and Greenwich Natural Oak edging packs

*Applies to rigid and handleless cabinets only.

F =

P =

UK = UK MANUFACTURED

Sustainability

All timber products we make are FSC® or PEFC certified, meaning the materials are sourced from well managed forests or recycled sources

ROAD TO ZERO

OUR JOURNEY TO
ZERO WASTE
ZERO EMISSIONS

The SBTi has approved our near-term, science-based emissions reduction target. We have committed to set long-term emissions reduction targets with the SBTi in line with reaching net-zero by 2050.

We use **lower emission fuels** such as hydrotreated vegetable oil in our trucks which produces **90% less CO2 emissions per litre** than diesel.

We use **carbon balanced paper** in our brochures which offset the emissions generated in brochure production.

Over 90% of the material used to manufacture our cabinets is **recyclable**.

100% of our factories and 96% of depots are now powered by clean, **renewable energy***.

Our Halesworth range is made using **50% less plastic** producing **50% less CO2 emissions** (in production and extraction).

Transforming kitchens for clubs and communities

With the support of Jill and Kammy, our Game Changer Squad is improving the kitchen facilities at over 450 football clubs across the UK, to help them transform their potential within our communities

Door Guide

A quick guide to our kitchen collections, styles, finishes and colours.

Paintable Kitchens

Chelford, Chilcomb and Elmbridge ranges are available in paintable options. The doors can be painted or sprayed by your builder in any colour to personalise your kitchen.

Beyond The Kitchen

With a variety of trade quality products, designed to fulfil practical and aesthetic requirements in any room, it's easy to create an interior that makes you feel right at home.

Hockley Natural Oak Wall Cabinets

LIVING ROOM

Tap into the trend for modular media units, and transform your living space with your choice of cabinets, doors and shelving, to create a chic and user-friendly entertainment zone. For more ideas, scan the QR code or search '**Living Room**' on [Howdens.com](https://www.howdens.com)

Greenwich Marine Blue Fitted Bathroom Furniture

FITTED BATHROOMS

Bathrooms are one of the most heavily used areas of the home, so creating a stylish, functional, and comfortable space is essential. Our range of cabinets has been developed especially to house and hide bathroom fittings and essentials for a clean and clutter-free space. For more ideas, scan the QR code or search '**Fitted Bathrooms**' on [Howdens.com](https://www.howdens.com)

Bridgemere Dove Grey Fitted Bedroom Furniture

FITTED BEDROOMS

Our Fitted Bedroom collection provides a choice of stylish and practical storage solutions to help you create a serene sleeping space. Choose from sleek and contemporary slab designs or classic shaker doors to cleverly conceal clothing, footwear, accessories, and other essentials. For more ideas, scan the QR code or search **'Fitted Bedrooms'** on [Howdens.com](https://www.howdens.com)

Hockley Super Matt Sandstone Fitted Bedroom Furniture

MOULDINGS & WALL PANELLING

Introduce decorative detail to your interior with a choice of wall panellings and mouldings. Providing texture and contrast, they break up large expanses of wall and enhance a heritage or contemporary look.

Veneered Real Wood Acoustic Wall Panelling

STAIRS & HOME OFFICE

Transform your interior and personalise the transition from downstairs to up with a choice of staircases and parts. Create a home-from-office setup in an empty nook or spare room with cabinetry and joinery products.

Richard Burbridge Elements Iron Stair System with Clerkenwell Charcoal Home Office Furniture

INTERNAL DOORS

Internal doors provide privacy, warmth and a sense of quiet, whilst also supporting the flow of a space. Glazed doors are an ideal choice to allow light to flow through a property and to give a spacious airy feel to a room. For more ideas, scan the QR code or search '**Internal Doors**' on [Howdens.com](https://www.howdens.com)

DOOR HANDLES

An essential accessory, handles are also an easy way to add a stylish stamp. From sleek styles to traditional designs, add a personal finishing touch. For more ideas, search '**Door Handles**' on [Howdens.com](https://www.howdens.com)

EXTERNAL DOORS

Create kerb appeal with our range of external doors. As the main focus when entering homes, offices and other buildings, they make a strong first impression and set the tone for indoors.
